Making the most of transit time with our special transit tours

We are now offering transit tours, called “Three-hour tour,” for transit passengers.

Because the Ministry of Land, Infrastructure and Transport has set up transit tours at Kansai International Airport, Narita International Airport, and Chubu Centrair International Airport, we at Kansai International Airport decided to offer two different types of tours, each a few hours long, to take visitors around the airport vicinity. Each tour is just 3 hours long. The “Shopping Mall Tour” takes visitors to Western Japan’s largest outlet center, as well as to the largest shopping mall in the airport vicinity. The other tour, called the “Discover Japan Tour,” goes to Mt. Inunaki, which is a famous hot spring area near the airport, giving the travelers a chance to recuperate. Surrounded by mountain scenery, participants can also experience the real Japan as they enjoy themselves in open-air spas, hiking, strolling, and more. Our transit tours are a fun, reasonable and highly efficient way to make the most of transit time. We hope everyone will give them a try!

Dates: Every day through February 28th, 2006
Available languages for guide service: Japanese – for both tours
English-only for the Discover Japan Tour
