Summary of Kansai International Airport Traffic for June 2009

Aircraft Movements:

Total aircraft movements	300 flights/day	(82% of number for 2008)
International flights only	198 flights/day	(90% of number for 2008)
Domestic flights only	102 flights/day	(69% of number for 2008)

The number of international flights (both passenger flight and freight flight) fell below the same month last year affected by the global economic stagnation and spread of influenza A (H1N1) infection.

Domestic flights made a 8-month consecutive drop from the previous year's level because of the successive suspension and the decrease in the number of flights.

Passengers:

Total number of passengers	28,600 people/day	(66% of number for 2008)
International passengers	17,900 people/day	(64% of number for 2008)
Domestic passengers	10,600 people/day	(69% of number for 2008)

The number of international passengers, both Japanese and foreign passengers, dropped sharply the same month last year affected by the global economic stagnation and spread of influenza A (H1N1) infection.

The number of domestic passengers was below last year due to the decrease in the number of flights.

Freight:

Total freight handled	1,576 tons/day	(67% of amount for 2008)
International freight	1,461 tons/day	(68% of amount for 2008)
Freight loaded	703 tons/day	(63% of amount for 2008)
Freight unloaded	758 tons/day	(73% of amount for 2008)
Domestic freight	116 tons/day	(57% of amount for 2008)

The volume of international freight (both loaded and unloaded) fell much below last year's June level due to global economic free fall.

The volume of domestic freight didn't reach the same level as last year due to the decrease of the number of domestic flights.
