Summary of Kansai International Airport Traffic for November 2009

Aircraft Movements:

Total aircraft movements	288 flights/day	(84% of number for 2008)
International flights only	204 flights/day	(94% of number for 2008)
Domestic flights only	84 flights/day	(68% of number for 2008)

The number of international flights (both passenger flight and freight flight) fell below the same month last year affected by the global economic stagnation.

Domestic flights dropped from the previous year's level because of the successive suspension.

Passengers:

Total number of passengers	35,900 people/day	(90% of number for 2008)
International passengers	26,200 people/day	(98% of number for 2008)
Domestic passengers	9,700 people/day	(73% of number for 2008)

The number of international passengers, both Japanese and foreign, remained almost the same as last year.

The number of domestic passengers was below last year because of the successive suspension.

Freight:

Total freight handled	1,902 tons/day	(97% of amount for 2008)
International freight	1,817 tons/day	(100% of amount for 2008)
Freight loaded	892 tons/day	(109% of amount for 2008)
Freight unloaded	925 tons/day	(92% of amount for 2008)
Domestic freight	85 tons/day	(61% of amount for 2008)

Although the volume of international freight unloaded fell below last year's November level, the volume of international freight loaded exceeded last year's level; as a result the total volume of international freight (both loaded and unloaded) remained the same as last year.

The volume of domestic freight fell below the level last year due to a decrease in the number of domestic flights.
